

LAYERS OF THE EARTH

INNER CORE

The inner core is in a _____ state. The inner core is over 9,000° F, nearly the same temperature as the surface of the sun!

OUTER CORE

The outer core is in a _____ state. The churning metal of the outer core creates the Earth's _____ field.

MANTLE

The mantle is often divided into the upper and lower mantle. The lower mantle is (circle one) hotter, colder, frozen, and more dense than the upper mantle.

EARTH'S CRUST

The crust is the outermost and the thinnest layer of Earth. It is made up of both (circle two) oceanic, pizza, continental crust.
